LA GAULETTE SSS

STRATEGIC SCHOOL DEVELOPMENT
PLAN 2012

Detailed Plans for 2012

- Individual attention
- Parents Involvement
- Innovative Learning Environment

Students Success
OUR VISION:

La Gaulette State Secondary School aims at providing, in partnership with parents, an innovative environment in which each student is cared for intellectually, morally and socially.

We have three areas on which our strategy is based:

S1. Involvement of parents in school life

We strongly believe that:
- Well-informed parental involvement can have a significant effect on children's achievements throughout their schooling. We work to develop effective partnership with parents to fully support the teaching and learning taking place at school.
- Teachers need to take account of learners’ experiences and achievements out of school when setting high expectations for learning.
- Effective partnerships can help parents to raise their children’s aspirations and expectations.

S2. Use of innovative teaching approaches

We provide a stimulating learning environment with a technological orientation across the curriculum. The integration of ICT in class teaching will ensure that students of different ability levels are able to achieve their fullest potential, so that they can make best contribution to society.

S3. Providing individual attention to each student

We are one of the very rare schools in Mauritius where we can provide individual and personalized attention to the students.

Being it in class, during the activity periods or during the counseling and coaching processes we provide appropriate conditions and framework for individual caring.
